

Date uploaded at MS Teams/Week 11-2025/Semester2 Week 10 2025

Group Number - 9

Project – Weightlifting Competition App

Team Accountability Document for the project

To be uploaded at your group channel at MS Teams weekly from Week 2 till week 12 by each Sunday 8 PM

This sheet is due in your team folder. It becomes part of your team's records for the project. Each team member needs to state explicitly what he/she contributed to the work of the team during the week (e.g. Who found relevant references, drafted a section of the project proposal, wrote code for particular function, or researched a project element and explained it to the rest of the team etc. A weekly filled document uploaded at MS Teams means that every member of the group has agreed about the work done by other members. The team facilitator will regularly check the submitted documents. The accountability document is not assessed directly, but it will be used to inform decision by the facilitator on your peer review weighting for group deliverables. It will also be used to inform discussions on any potential group conflicts.

Student Number & Name	What I contributed to the team work this week
24325709 Neethu	Attended meeting with client for client feedback on progress. Worked on the project deliverables.
24110857 Sarthak	Worked on bugs on referee page. Presented new referee features to the client and added more features and enhancements after client feedback. Added more features on timekeeper page on the basis of client feedback. Raised and closed the Issues.
23746416 Chaewon	Presented our progress to client during final client meeting. Worked on athlete page to update the logics for the features according to client's feedback. Worked on final report draft.
24085253 Chenglin	Made a new display page. Had meeting with teams and clients.
24038357 Iliyas	Presented and got feedback from client. Implemented changes in break time for competition model. Fixed a bug in referee creation.
24323312 Jingtong	Refine project structure; add test coverage report, the instructions to run coverage report and code format; GitHub Action Automation. Update User documentations.
24074951 Tony	Attended meeting with clients.
