Date uploaded at MS Teams/Week 3-2025/Semester2 Week3 2025

Group Number - 9

Project – Weightlifting Competition App

Team Accountability Document for the project

To be uploaded at your group channel at MS Teams weekly from Week 2 till week 12 by each Sunday 8 PM

This sheet is due in your team folder. It becomes part of your team's records for the project. Each team member needs to state explicitly what he/she contributed to the work of the team during the week (e.g. Who found relevant references, drafted a section of the project proposal, wrote code for particular function, or researched a project element and explained it to the rest of the team etc. A weekly filled document uploaded at MS Teams means that every member of the group has agreed about the work done by other members. The team facilitator will regularly check the submitted documents. The accountability document is not assessed directly, but it will be used to inform decision by the facilitator on your peer review weighting for group deliverables. It will also be used to inform discussions on any potential group conflicts.

Student Number & Name	What I contributed to the team work this week
24325709 Neethu	Arranged a meeting with group facilitator and team members and discussed the client requirements. Prepared MOM. Provided inputs for discussion about requirement feasibility and dividing roles and responsibilities. Discussed the rubric for D1.
24110857 Sarthak	Participated in the meeting with group facilitator and discussed and shared ideas about the project scope and requirement with the team members. Made a github repo and organization for the team to contribute. Also discussed about the task allocations.
23746416 Chaewon	Participated in the meeting with the group facilitator. Shared the document received from client and discussed the requirements and possible development directions. Also, discussed future task management and role allocations. Documented functional specification document as preparation for next client meeting. Researched local network implementation methods.
24085253 Chenglin	Created a conversation summary from the customer meeting recording. Shared ideas about challenging customer requirements. Assigned for the front-end developer role within the team.
24038357 Iliyas	Participated in the meeting with the facilitator, discussed issues and asked questions. Also, discussed future plans and role allocation within the group.

24323312 Jingtong	Read and interpreted the project requirements, brainstormed feasible solutions, and contributed to defining potential approaches. Assisted in allocating team member roles based on skills and project needs.
24074951 Tony	Read through the document from client. Participated in the meeting with facilitator. Shared ideas for local network issue and future plans for the project. Participated in role allocation.
